### Should we worry about 8 billion people?

**HCN** High Country News | 19 days ago

Last month, the United Nations announced that the Earth's population had reached **8 billion**. The organization's leaders don't see all those humans as something to fear, but rather as, in the words of Secretary General António Guterres, "an occasion ...

### World population crosses 8-billion threshold, UN says

**MP** MercoPress | 7 days ago

More people living longer means additional responsibilities According to an assessment from the United Nations (UN), the world's population Tuesday crossed the 8-billion-people threshold, which ...

### 8 Billion Human Population News

**F** Firstpost | 16 hours ago

The year will also go down in history when the world's population reaches eight billion

### 8 billion: How many is too many when it comes to the health of the planet?

**AF** Augusta Free Press | 1 day ago

Global population has indeed reached **8 billion**. Lower mortality rates and longer life expectancies have contributed to elevated population numbers.

### The tragedy or triumph of sustaining 8 billion humans

**WT** Washington Times | 19 days ago

The world population hit **8 billion** people in November. A tragedy or a triumph? Neither. It depends on how you look at it. As some wise terrestrial sage once penned: "It is what it is."

Even as Taylor was speaking in the parliamentary hearing, Travis Kling, head of crypto hedge fund Ikigai, announced his fund had become one of the first serious casualties of FTX's failure and ...

## 2022 Year In Review: Crypto Policy Experiences Massive Turbulence In Congress Amid TerraUSD And FTX Failures

Forbes | 3 days ago

Even before a months-long winter engulfed the digital-assets market, 2022 was shaping up as the year that Washington began to get serious about regulating the cryptocurrency business. That resolve was bolstered throughout the year by a series of calamities that included a massive stablecoin failure of terraUSD and the associated luna.
