

# NFE-10-2022 HITS

Three people have been injured in Russia's missile attack on energy infrastructure in the Odesa region.

The relevant statement was made by Odesa Regional Military Administration on Telegram, an Ukrinform correspondent reports.

"As a result of the missile attack, two cruise missiles hit a critical infrastructure facility in the Odesa district. Three people have been injured and are now being provided with medical aid," the report states.
